

Baseball Program

Our Baseball Excellence Program continues to consolidate it's successes while planning for the future.

We now have in place one of the finest Programs in the country that accomodates athletes from the Gold Coast Region to as far north as Brisbane. We also have several students from Japan and Europe and are currently in discussions with interested parties from Korea. This is a truely international program that enables our athletes to achieve their very best both on and off the diamond.

Over recent years, Robina High has invested a lot into our Baseball Program and our students have some of the finest facilities available with a complete baseball field and gymnasium.

Our bi-annual tour of Japan and the United States is a highlight for all of our players who have gained a large amount of experience by being immersed in a very different, but baseball-mad, culture.

We have had several players over the past few years who have achieved baseball scholarships into American Colleges. A tradition set to continue at Robina High. In 2009, Aaron Thompson (class of 2008) signed a professional contract with the Texas Rangers.

Cost per semester: Baseball \$220 (2009 fees)
