

School Nurse

My Name is Helen and I am the School Based Youth Health Nurse for Robina State High School. I would like to take this opportunity to introduce myself to all staff, parents and students.

I am a Registered Nurse, endorsed midwife and nurse practitioner in sexual health. I have a broad range of nursing experience and have a thorough understanding of the complex needs of young people. The main function of my position is to work in a collaborative way with the broader school community to achieve better health outcomes for young people, through:

- Individual, confidential health consultation for students, parents and school staff
- Health Promotion activities in the school and classroom (on request)
- Facilitating, assisting with teacher in-service on health issues/programs
- Being a health resource person
