

Community Liaison

Di Loddon, our Community Liaison Officer, known to many as Mum, is lucky enough to be involved in a lot of student's lives.

"My position is one where the students feel comfortable talking to me and the parents feel they have a friend at the school who they can talk to and feel confident that there their students will achieve positive outcomes. The Parent Centre creates a welcoming introduction to our school environment. Parents have told me they feel very comfortable coming to the centre. I am very proud of being able to work with parents and students of Robina State High School and have made many friends with parents and past students which will go on forever".
