

Golf Program

Our Golf Excellence Program provides wonderful opportunities for a wide range of students. Through our resident, professional, Peter Cloughton we also formed very strong links with AAA Golf Academy at The Colonial, which has allowed students to access some of their facilities, particularly the regular psychological support talks. We created the AAA versus Robina match play competition, which was proudly won by Robina. This will be held every term and will be played at the different courses that are accessible each Friday. We have strong representation in the South Coast teams by Dennis Asriyadi, Hyun-Chea Song and Courtney Massey. Each player plays extremely well and conducts him or herself in a very professional manner.

In 2005 and beyond it is envisaged that strong links will be formed with Griffith and Bond Universities which will further develop the students involved in the program.

Cost per semester: Golf \$450 (2009 fees)

Golf Prospectus Brochure

I swung my first club at age eleven and within twelve months I hit the 18 hole course with a handicap of 43.
