Our **Baseball Specialisation Program** utilises the instruction of a number of Australian Olympic team players. We train on our own school baseball field and work with the ABF as well as scouts and agents. Since the inception of the Program in 1999:

- Over 60 players have ascended to at least state representation in baseball
- Annually, two thirds of regional teams are Robina High Students
- We won the open state school’s championship a record five consecutive times
- Ten students have gone to US Colleges and six have continued onto US Universities.
- Four students have played for Australia
- Our team has toured Japan and the USA

“Thanks to the Baseball Program in 2011 I start a 7 year professional contract with the Philadelphia Phillies!”  
Josh Warner, Kingfisher 2010

Our **Japanese Immersion Program** is a program of academic excellence that teaches students Science, Mathematics and Business in Japanese. These students develop amazing cognitive skills, memory capacity, study ethics and curriculum understandings. Through immersion in the wonderful language and culture of Japan, students develop personally and academically. A four week study tour in Japan is the culmination of the Year 8, 9 and 10 program. This program is tailored to suit domestic students who are not native speakers.

Our **Futsal Specialisation Program** is the largest of its kind in Australia. Futsal is the only internationally recognized form of indoor football (soccer).

Our program was developed cooperatively with a top Brazilian international coach and allows students to develop both theoretical and practical aspects of the game including playing, refereeing, coaching and organizing tournaments.

Coaching staff are highly qualified, with extensive coaching experience at a high representative level.

The program caters for all age groups and both males and females!

Our Futsal teams have experienced many successes at local, state and national level.
